

Region Uppsala

openEHR in Region Uppsala

Nordic openEHR Collaboration Meeting March 2025

Ruth Lochan Winton

ruth.alicia.lochan.winton@akademiska.se

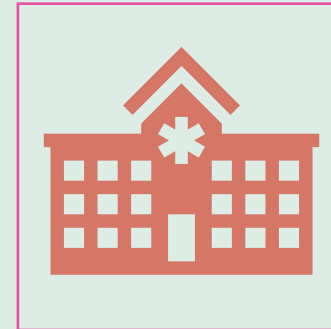

There is no official decision on using openEHR in Region Uppsala

.... but

RU is actively exploring openEHR to enhance healthcare data interoperability and patient care

Key Initiatives

Participation in a multi-region RFI:

Collaborated with six other regions in a Request for Information on openEHR platforms and tools.

Prototype Development:

Developed a self-reporting lifestyle questionnaire ('hälsoenkät') using openEHR.

Home Patient Monitoring (PEM)

Blood pressure and pulse measurements

Collaboration and Capacity Building

Vinnova Projects

- ASHA – *Enhancing Healthcare Efficiency through Standardized Health Data Management*
Branskadcentrum/ Burn Center at Akademiska
- PDCH - *Transformative Shift to Assisted Planned Data Collection in Health*
Barnsjukhuset/ Children Hospital, home monitoring of asthma

Nordic Hackaton

Competence Development - Focused on building expertise in openEHR among healthcare professionals.

Future Directions

Continue work towards getting an official decision about openEHR and development of an IT infrastructure/IOT

Expansion of pilot openEHR initiatives

Continued Collaboration

Maintain partnerships with other regions and organizations

Participate in national initiatives.

Actively involved in the international openEHR community

Region Uppsala

Thank you!

Reflecting on your openEHR journey ...

What advice would you
give to a region or
institution that is just
starting out?

In hindsight, what
would you have
done differently?
